## MISCELLANEOUS.

**DR. HALL'S BALSAM**

Cures Croup, Pneumonia, Bronchitis, Asthma, Whooping Cough, and all diseases of the Breathing Organs. It soothes and heals the membranes of the Lungs, inflamed and poisoned by the disease, and prevents the night sweats and tightness across the chest which accompany it. CONSUMPTION is not an incurable malady. It is only necessary to have the right remedy, and HALL'S BALSAM is that remedy. DON'T DESPAIR OF RELIEF, for this benign specific will cure you, even though professional aid fails.

**Dr. M. H. Hinsdale.**

Kewanee, Ill., advises us of a remarkable cure of Consumption. He says: "A neighbor's wife was attacked with violent lung disease, and pronounced beyond help from Quack Consumption. As a last resort the family was persuaded to try HALL'S BALSAM. To the astonishment of all, by the time she had used one-half dozen bottles she was about the house doing her own work. I saw her at her worst stage, and had no idea she could recover."

**BWARE OF COUNTERFEITS.**

**HENRY'S CARBOLIC SALVE,**

**THE MOST POWERFUL HEALING AGENT EVER DISCOVERED.**

Henry's Carbolic Salve heals burns, Henry's Carbolic Salve cures sores, Henry's Carbolic Salve allays pain, Henry's Carbolic Salve cures eruptions, Henry's Carbolic Salve heals pimples, Henry's Carbolic Salve heals bruises.

**Ask for Henry's, and take No Other**

**BWARE OF COUNTERFEITS.**

**Read the Following:**

John F. Henry & Co. Gentlemen: This is to certify that I have a very large, extended practice in the northern part of Iowa; that my business is devoted to the treatment of chronic cases, involving many which have been pronounced incurable by other physicians. During the past year I have very freely used Henry's Carbolic Salve, in a number of very aggravated cases and it has given the best of satisfaction. It is healing, emollient and antiseptic and never disappoints the physician or patient. **SHOULAND HARRIS, M. D.** Mason City, Iowa 13th Nov., 1879.

FOR PRESIDENT,  
**JAMES A. GARFIELD,**  
Of Ohio.  
FOR VICE PRESIDENT,  
**CHESTER A. ARTHUR,**  
Of New York.

San Francisco has rejected the proposed new City Charter by a large majority.

The New York Tribune says of the Vermont election that it looks like the beginning of a Democratic Waterloo.

It is reported in London that the Prince of Wales will go to Australia in October and return by the way of California.

The Lyon county jail is again tenantless. Their last prisoner—a Chinaman—was turned out on the cold charity of the world last Saturday.

It is impossible not to recognize the fact that the Democrats are making a spiritless campaign. The best running was in the early part of the race.

Colonel James G. Fair and party sailed from Havre for New York on Saturday last, and will arrive back on the Comstock about the 50th inst.

It is said that Mr. Williams, who was Attorney-General under Grant, when he left office six years ago was \$120,000 in debt, which he has fully paid off by the earnings of his law practice in Washington.

The wedding of U. S. Grant, Jr., and Miss Flood, of San Francisco, will not take place until after the Christmas holidays. Mr. Grant is now visiting General Miller, one of the candidates for United States Senator from California.

In 1878 the Republican majority in Vermont was 20,038. This year its plurality is 27,000, with a majority over all of 22,000. There will be one Democrat in the State Senate and the House will be overwhelmingly Republican. The Republicans hold their own in Vermont sure enough.

The strike in the famous Rocky Bar mine, Grass Valley, Cal., is richer than ever. A specimen piece was taken out last Saturday for which they refused an offer of \$2,700. This will be exhibited at the Mechanics' Fair, now in progress in San Francisco. A pending assessment on the Rocky Bar has been rescinded, the rich strike doing away with the necessity for such foolishness.

This is the way a St. Louis paper puts it: "The Nevada Senatorship is again for sale, Mr. Sharon's term being almost out. The seat generally costs half a million dollars, and always goes to the highest bidder. Mr. Sharon is again in the field, and, if he is willing to pay more money than any one else, will no doubt be successful. He rarely goes to Washington, and his pretense of representing the State (in which he does not live) is the merest mockery."

Lewis Clark, the "George Harris" of "Uncle Tom's Cabin," is living at Oberlin, Ohio. His skin and beard are almost white. His mother, he says, was a handsome quadroon, the daughter of her master, and his father was a Scotch weaver, who fought in the Revolutionary War. He was born in Kentucky and is sixty-six years old. He was a slave until he was twenty-seven, when he escaped. One of his daughters is a school teacher. He supplied Mrs. Stowe with many incidents for "Uncle Tom's Cabin." The original Uncle Tom, Josiah Hensen, was not whipped to death, and is now a clergyman in Ontario. The crossing on the ice by a woman was in 1841. Eva was Mary A. Logan, who lives in the South. Mr. Clark would be glad to lecture.

**A Little More Grape, Captain Bragg**

This famous saying has now gone into history as one of the sayings of the rebellion. It is related that Gen. Taylor became so excited during a battle at the stubborn resistance of the enemy and to hasten matters Taylor gave the order, "A little more grape, Captain Bragg!" Now this sounds very well for Sunday School books, but the facts do not bear this remark out, for when Taylor took in the situation, he angrily yelled, "Give the ——— some more grape, Captain Bragg! ——— them!" This is as close as the types (which were carefully reared in the childhood) will permit us to give the exact command. The intellect of average Renoite will readily grasp the misquoted Scripture contained in it.

**FEDERAL FINANCES.**

The distinguished feature of soldiers' reunions this year is that they are so largely meetings for mutual congratulation and prospects of the people of improved condition and prospects of the people of the United States. No man of well balanced character can fail to be grateful for the blessings of this period of restored prosperity, who will consider even in the most casual and hasty way the familiar facts of our history during the last nineteen years. At one of his speeches in Ohio President Hayes delivered the annexed interesting statements touching our financial affairs during the great event of the period named:

In reply to a resolution of the Senate the Secretary of the Treasury reported, in June last, a statement of the expenses of the government on account of the war of the rebellion, from July 1, 1861, to June 30, 1879, inclusive. In that official report it is stated that the expenditures growing out of the war, after deducting all the expenses of the government other than those for the war, have amounted to the sum of \$6,189,929,908 58. This great sum has all been paid in the last nineteen years, except the present amount of the national debt. Deducting the debt which still remains, from this statement of the cost of the war, and it appears that during the four years of the war, and in the fifteen years which have since elapsed, the United States has paid, in excess of all the ordinary and extraordinary expenses of the government in time of peace, more than \$4,275,000,000 on account of the war. This is an average of about \$225,000,000 per year of war expenditures for the last nineteen years. These enormous payments were chiefly during the war and in the years immediately following the war. That such vast expenditures by the government should lead to an inflated currency, to extravagant living and to reckless enterprises, and that these in turn should be followed by that tremendous event, a financial panic and its attendant ruin and distress, were inevitable, and were a part of the price paid for a restored Union, for a stable government and for human freedom. On the 31st of August 1865, the total debt resulting from the war was \$2,756,431,571 43; the interest bearing debt was \$1,381,520,294 96, and the annual interest charge was \$150,977,697 87. Now, after exactly fifteen years have past, the total debt, less cash in the Treasury is \$1,900,000,000; the interest bearing debt is \$1,723,993,100; and the annual interest charge is \$79,633,981. Fifteen years ago the share of the national debt of each inhabitant of the United States was \$78 25, and each person's share of the interest charge was \$4 29. Thousands were induced to believe that such a debt could never be paid, and that our national debt like that of England, would be a perpetual burden upon ourselves and our prosperity. Now, however, the debt has diminished to less than one-half for each inhabitant of what it was in 1865, and the interest charge per capita is scarcely more than one-third of what it was fifteen years ago.

**NATIONAL RESOURCES.**  
Such being the favorable state of our debt, let us for a moment examine the condition of our resources. The imports and exports for the last thirty years have been as follows:—In the twenty-five years next prior to five years ago the excess of imports over exports—the balance of trade against us—was \$1,500,000,000, and the average annual excess of imports was more than \$60,000,000. In that period of a quarter of a century there were only three years in which the exports exceeded the imports, and in those three years the average annual excess of exports was only about \$9,000,000. Compare this condition of trade with the last five years, during which the excess of exports over imports—the balance of trade in our favor—has been as follows: 1876, \$79,643,481; 1877, \$151,152,094; 1878, \$257,614,234; 1879, \$264,661,666; 1880, \$167,908,359. Total in five years, \$921,179,823, or a yearly average balance of trade in our favor of \$185,000,000.

**GOLD AND SILVER.**  
In a period of thirty years prior to 1880 there has been only one year in which we received into the country from abroad more of the precious metals than we sent out of the country. That year was an exceptional year—at the beginning of the war. In 1861 our imports of gold and silver exceeded the exports \$16,548,531. In all other years except the last, our exports of the precious metals have exceeded our imports per year from \$4,000,000 to \$90,000,000, and have averaged at least \$40,000,000 a year. In 1880, the last fiscal year, the imports of gold and silver exceeded exports \$75,891,391, a gain from abroad of the precious metals over the previous year of \$80,592,832 and a gain over the average yearly balance of thirty years past of \$115,000,000. This gain in the precious metals alone of over \$75,000,000 in the first year after the resumption of specie payments, in the fact of confident predictions that resumption would result in a ruinous contraction of the currency, may well encourage those who wish to take the remaining steps necessary to reach a perfectly sound and healthy condition of the currency. Whatever introduces into our financial system the elements of steadiness, certainty and unquestioned good faith have always been found to increase the facility with which legitimate business can produce the capital it needs. Plausible predictions of contraction and distress are always in such cases falsified by the results. Without further allusion to the mooted question of finance to be hereafter settled, let us pass to other evidences of the increasing prosperity of our country.

**OUR GROWING COMMERCE.**

Our foreign commerce has increased in the last thirty years as follows: 1851, \$399,636,689; 1861, \$503,861,375; 1871, \$993,043,862; 1876, \$1,001,125,891; 1879, \$1,156,217,216; 1880, \$1,503,679,489. The value of imports and exports in the year ending June 30, 1880, was greater than the preceding year by the sum of about \$347,000,000—an increase of thirty per cent. and is larger than in any previous year in our history. The enormous gain in the tonnage of

American and foreign vessels entered at seaports of the United States is shown by the following: Tonnage, 1860, 5,000,194 tons; tonnage, 1870, 8,270,189 tons; tonnage, 1880, 15,261,045 tons. This remarkable increase has been caused by the shipment to foreign countries of an unprecedented amount of the bulky products of American farms. It will be gratifying to the friends of American agriculture to notice the vast increase in the exports of farm products during the last few years: Bread and bread stuffs 1878, \$98,743,151; 1879, \$210,355,528; 1880, \$288,036,835; provisions 1878, \$78,107,241; 1879, \$116,058,650; 1880, \$127,043,242; animals, living 1878, \$2,063,447; 1879, \$11,487,754; 1880, \$15,882,128; totals 1878, \$178,973,839; 1879, \$337,901,932; 1880, \$430,962,197.

In those articles the increase of exports is about 240 per cent. in seven years, and 27 per cent. since the last year.

**BUSINESS PROSPERITY.**  
The failures since the panic of 1873 have ranged from over 5,000 to more than 10,000 per year. The average number has been about 8,000 a year. The amount of liabilities has averaged about \$200,000,000 per year. In the first six months of this year there were only 2,497 failures and the liabilities were only \$32,888,763. The failures are rather more than one-half in number and the liabilities are less than one-third in amount as compared with the five years next after the panic. It is the opinion of competent judges that the number of failures which now occur, and the amount of liabilities in proportion to the amount of business done and the number of enterprises which are undertaken, is less than ever before in this country. Never could the men engaged in legitimate industry or business reckon more confidently upon reasonable remuneration for his labor and capital than at the present time. The people of foreign nations understand this almost as well as we understand it ourselves. From all parts of Europe people are coming to America—people not less thrifty nor less intelligent than those they leave behind—to share with us the abounding prosperity which we now enjoy. They come here to better their condition because we are prosperous, because we are at peace at home and abroad, and because they hope here to find civil and religious liberty guaranteed by the stable government of a united people. These advantages, which so strongly attract immigration, are the truths for which we fought in the war for the Union. Let us resolve to do all we can, in our respective places in life sacredly to guard them, not only for ourselves and our posterity, but for all mankind.

**"WHO ENTERS HERE LEAVES HOPE BEHIND."**  
A correspondent of the Philadelphia Times has been visiting the Hospital de San Lazaro, at Havana, the Home of the lepers. This ancient and terrible disease finds many victims among the low-caste Cubans and poverty stricken Chinese, and it reaches its gaunt fingers into better society sometimes. Leprosy is either inherited or induced by poor food, and especially the eating of stale fish. It seems to be a fish-eater's disease, in fact, seldom prevailing at any great distance from the sea. Leprosy, as seen in the West Indies, is simply a dry-rot. The soul of a man is imprisoned in his body long after he is to all intents and purposes, dead, and, with all his mental faculties intact, he must endure the gradual falling apart of his earthly tenement, awaiting with what philosophy he may the hour when the cancerous agent shall touch a vital point. This may not occur for many years; it may happen on the morrow. The traditions of the hospital do not point to any individual case of cure whereby the patient may gain even so faint a hope. The leading peculiarity of the first patients met loitering in the corridors was a clay like appearance of the skin and a depression or caving in of the nasal portion of the face. The nostrils and lobes of the ear were globular and holes were formed over the eyebrows. The voices of the men nearly all changed, sounding indistinct and painful. Patients were bidden to approach, who hobbled to us upon the stumps of limbs long since robbed, by the process of diseases, of feet and ankles, and they held out for our inspection miserable remnants of arms, shriveled, warped and decayed, and yet these arms found cunning enough to grasp and remove hats from their matted heads of hair when we tentered a few bits of Spanish currency.

A bright little boy ran toward us with an orange in either hand. He was the pet of the hospital. His mother was an inmate far gone with the disease. He was not yet old enough to know the fate that awaited him. What a pity this little chap is not taken as a subject for scientific experiment. Can it not be that there exists some means of driving out the venom and building up the system of the unhappy progeny of leper with healthy tissues?

"We cannot consent to allow any form of servile labor to be introduced among us under the guise of immigration,"—Gen. Garfield.

Wm. Goeggel is classed amongst the most skillful watchmakers on the Pacific Coast. How it is done.—The first object in life with the American people is to get rich; the second, how to retain good health. The first can be obtained by energy, honesty and saving; the second, (good health,) by using Green's August Flower. Should you be a despondent suffer from all the effects of dyspepsia, liver complaint, indigestion, &c., such as sick headache, palpitation of the heart, sour stomach, habitual constiveness, dizziness of the head, nervous prostration, low spirits, &c., you need not suffer another day. Two doses of August Flower will relieve you at once. Sample Bottles 10 cents. Regular size 75 cents. Positively sold by all first-class Druggists.

**OUR WASHINGTON LETTER.**

WASHINGTON, Sept. 2, 1880.  
The Maine campaign is drawing to a close. The talk among Republicans there is not of the result but of the majority. In the very attitude of the leaders, one can see that the dawn of a brilliant victory has broken upon them. They are not nervous and anxious as they were at this stage of the canvass last year. Another significant fact is that the fusion leaders show signs of confusion and despair. Fusion in politics is never thorough, all history proves this, and there are many loyal Green-back Republicans who have drawn out from this contest because the fusion is

**A SURRENDER.**  
To the Democrats, who, if victorious would claim it as a Hancock victory, which would help the Democratic fight in the country. Though Vermont votes before Maine, the latter is the first State of real significance in the canvass. Mr. Blaine is working like a Trojan, he is continually on the stump, and is at the same time doing the hard vigilant committee work of the canvass. The Maine fight has been a hard one, but the victory will more than repay the party for its labors there. Doubts have been expressed by some northern men of the truth of the statement, that a

**CONFEDERATE SOLDIER**  
Had applied for pay for his services in the war. I have seen the application and read it through; the claim is made by Robert Hanna, who sets forth that he enlisted August 1st, 1861 in Company "G" 15th South Carolina Regiment Confederate State of America, and claims bounty under the acts of July 22, 1861 and July 28, 1868. He says he was discharged for wounds received, and has applied to the pension office for a pension. The application is bona fide, made through a regular claim agent, is signed by the soldier, and all the papers substantiated by the proper courts of South Carolina. Any one doubting the statement can see the paper by applying to the pension office, at the office of the second Auditor.

**COLONEL PIATT**  
of the Washington Capitol, is one of the most shrewd politicians in the country; in an issue of his paper before the Democratic Convention met, he said, "the Democracy will have to accomplish almost an impossibility at Cincinnati in acting wisely to save themselves even a decent majority." In his issue of Sunday last, he calls Hancock "that epauletted nonentity;" of course he does not believe they did act wise enough to save even a decent majority. Colonel Piatt is a hater of the Republican party, but is honest enough to be candid about General Garfield, of whom he says, "he holds the honored position of being the only poor man among political leaders;" he knows that all the stander about General Garfield are without a shadow of truth, and although he does not want to see him elected he testifies to Gen. Garfield's great worth as a man.

Attorney General Devans has gone West to take part in the canvass in Ohio and Indiana.

**LOGAN.**  
"The recent movement of the Chinese to our Pacific coast is too much like an importation to be welcomed without restriction; too much like an invasion to be looked upon without solicitude."—Gen. Garfield.

**FOR DISTRICT ATTORNEY.**

**CHARLES QUINN** will be a candidate for District Attorney, subject to the decision of the Democratic Convention.

**HOSTETTER'S**  
CELEBRATED  
  
**BITTERS**  
STOMACH  
Though Shaking Like an Aspen Leaf  
With the chills and fever, the victim of malaria may still recover by using this celebrated specific, which not only breaks up the malarious system, but prevents their recurrence. It is infinitely preferable to quinine, not only because it does the business far more thoroughly, but also on account of its perfect wholesomeness and invigorating action upon the entire system.  
For sale by all Druggists and Dealers generally.

**REPUBLICAN**

**COUNTY PLATFORM.**

Resolved, That we most heartily endorse the principles as embodied in the National and State Republican Platform.  
Resolved, That we recognize in James A. Garfield and Chester A. Arthur, the Republican nominees for President and Vice President, pre-eminent worth and ability. Their past record, patriotism and services give assurance of their fitness for the posts to which they have been nominated, and that they should and will have our earnest and united support.  
Resolved, That in R. M. Taggart, the Republican party has given to the people of Nevada an able and industrious representative, and in Wm. H. Beatty an honest and fearless Judge, and we will endeavor by united work to secure their reelection.  
Resolved, That the Republican party ever has encouraged and supported free and intelligent labor, and ever will endeavor to restrict the unrestricted immigration of Chinese to our shores, and to promote the happiness and well-being of the laboring classes of our nation, and fully recognize the self-evident fact that our national growth, grandeur and prosperity are the results of free labor.  
Resolved, That the principles of our government can only be upheld and perpetuated by a full free and fair ballot, and that to secure and protect the right of suffrage to every citizen it is our duty to discountenance and condemn any violence or attempt at interference with this sacred right, and that every lawful measure should be invoked to secure this right to every citizen.  
Resolved, That in view of the fact that the Republican party has ever been true to its trusts in the past, our national prosperity and welfare demand a continuation of its rules.  
Resolved, That it is the duty of every Republican to give his support only to men whom we are assured will guard and protect the interests of the people, and advance and promote the educational, industrial, and manufacturing, agricultural, mining and other industrial pursuits of our people.  
Resolved, That the Republicans of Washoe county favor a change in the office of United States Senator, and that our representatives and Senators be instructed to vote as a unit on all Senatorial questions, and endeavor to secure the election of a man whose home is in Nevada.  
Resolved, That we pledge the Republican party to use every effort to reduce the expenses of our State government, and that we are opposed to the repeal of the County Salary Bill.  
Resolved, That we are opposed to the so-called Drummers' License law, and would recommend its repeal or the reduction of the license to five dollars per month.  
Resolved, That the Republican party of Washoe county extends a cordial invitation to capitalists to come here and build grand a cable, open mines, run irrigating ditches and lay railroads, and we promise equal and exact justice and fair dealings to all.
